Offers invaluable background information about the law topics discussed, giving teachers the confidence to explore these topics with their students. The Teacher's Book guides the teacher through the exercises in the book and suggests optional consolidation activities along the way. It includes over 50 extra photocopiable activities and adds a whole new communicative dimension to the course, with lots of ideas for discussion and role-plays.

the Green Knight offers "a brilliantly well-tuned modern score for one of the finest surviving examples of Middle English poetry" (Poetry Review) that "recreates the original's gnarled, hypnotic muscle, its tableaux and landscapes, and its weird, unsettling drama" (Mark Ford, the Financial Times). This edition, revised by Armitage with advice from scholars Alfred David and James Simpson, also offers a new introduction by the translator.

Remediation in medical education is the act of facilitating a correction for trainees who started out on the journey toward becoming excellent physicians but have moved off course. This book offers an evidence-based and practical approach to the identification and remediation of medical trainees who are unable to perform to standards. As assessment of clinical competence and professionalism has become more sophisticated and ubiquitous, medical educators increasingly face the

Challenge of implementing effective and respectful means to work with trainees who do not yet meet expectations of the profession and society. Remediation in Medical Education: A Mid-Course Correction describes practical stepwise approaches to remediate struggling learners in fundamental medical competencies; discusses methods used to define competencies and the science underlying the fundamental shift in the delivery and assessment of medical education; explores themes that provide context for remediation, including professional identity formation and moral reasoning, verbal and nonverbal learning disabilities, attention deficit disorders in high-functioning individuals, diversity, and educational and psychiatric topics; and reviews system issues involved in

remediation, including policy and leadership challenges and faculty development.

This is a book about the big questions in life: knowledge, consciousness, fate, God, truth, goodness, justice. It is for anyone who believes there are big questions out there, but does not know how to approach them. Think sets out to explain what they are and why they are important. Simon Blackburn begins by putting forward a convincing case for the study of philosophy and goes on to give the reader a sense of how the great historical figures such as Descartes, Hume, Kant, and Wittgenstein have approached its central themes. Each chapter explains a major issue, and gives the reader a self-contained guide through the problems that philosophers have
